

FIG 1

HIV Envelope DNA Constructs

Note:

Env B is codon optimized

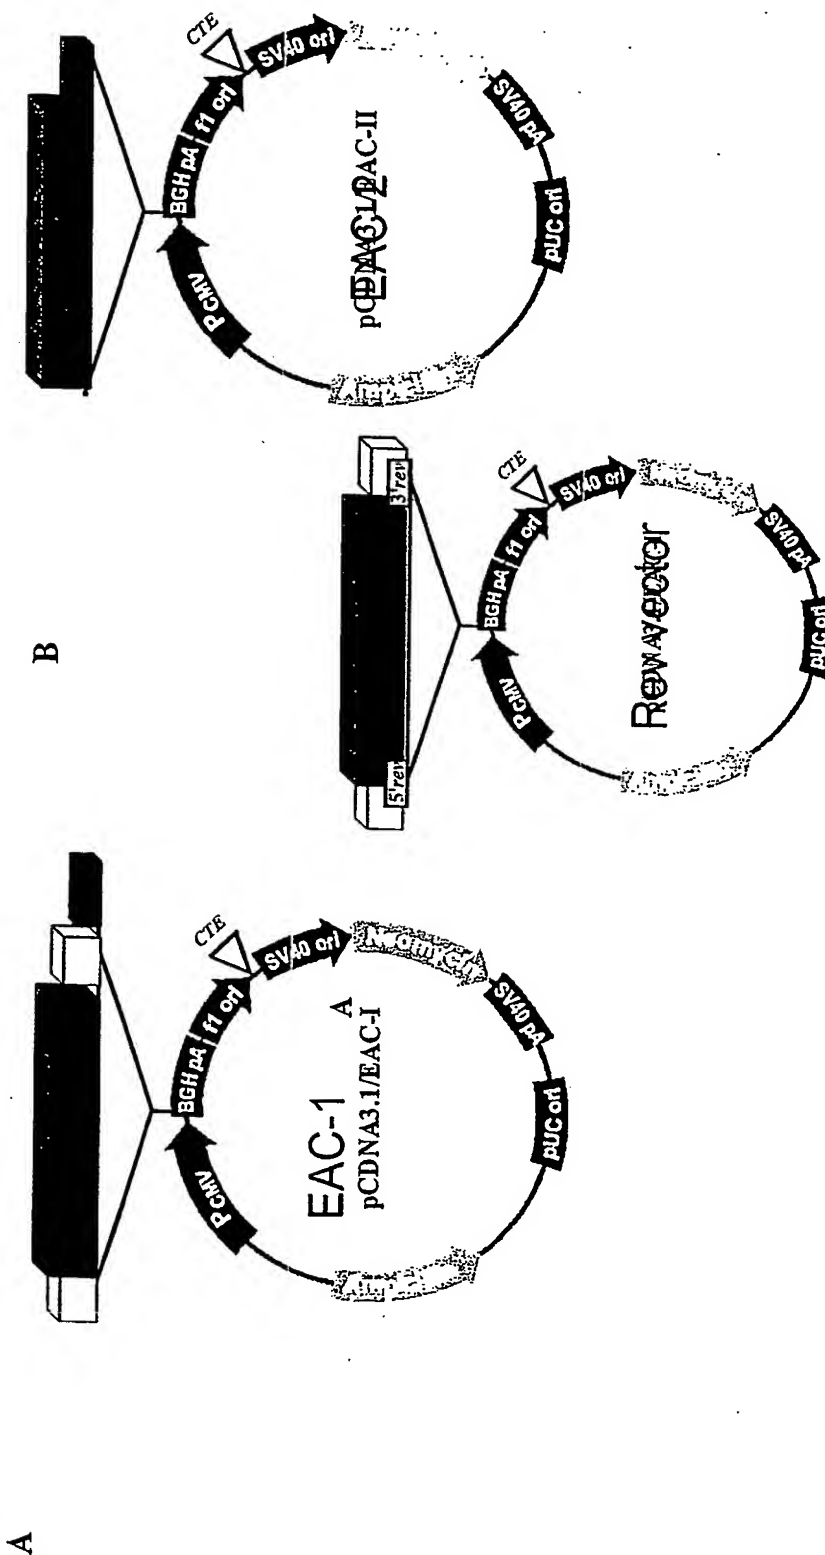

FIG 2

Total IgG antibody titers in the sera immunized mice

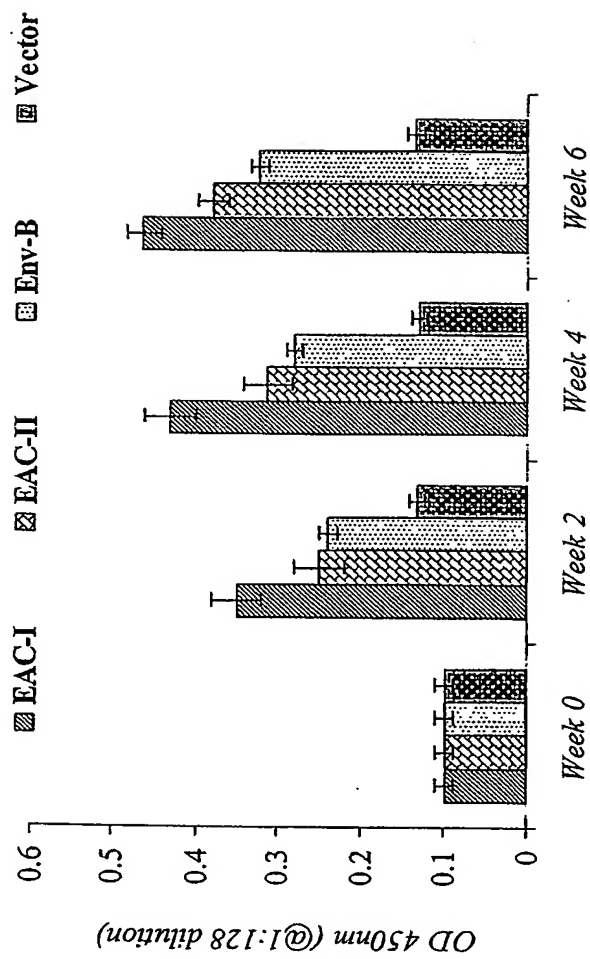

FIG 3
T-cell proliferative response to Env

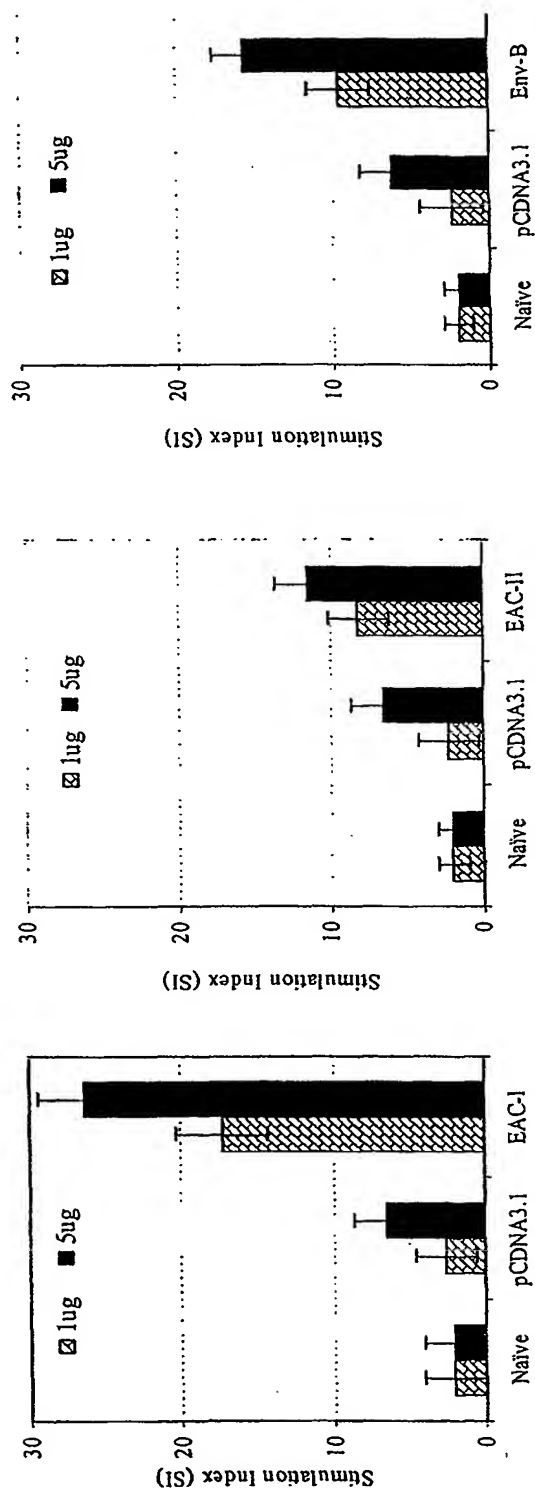

FIG 4

Induction of intracellular IFN- γ in vaccinated splenocytes

Comparison of EAC-1 and EAC-II

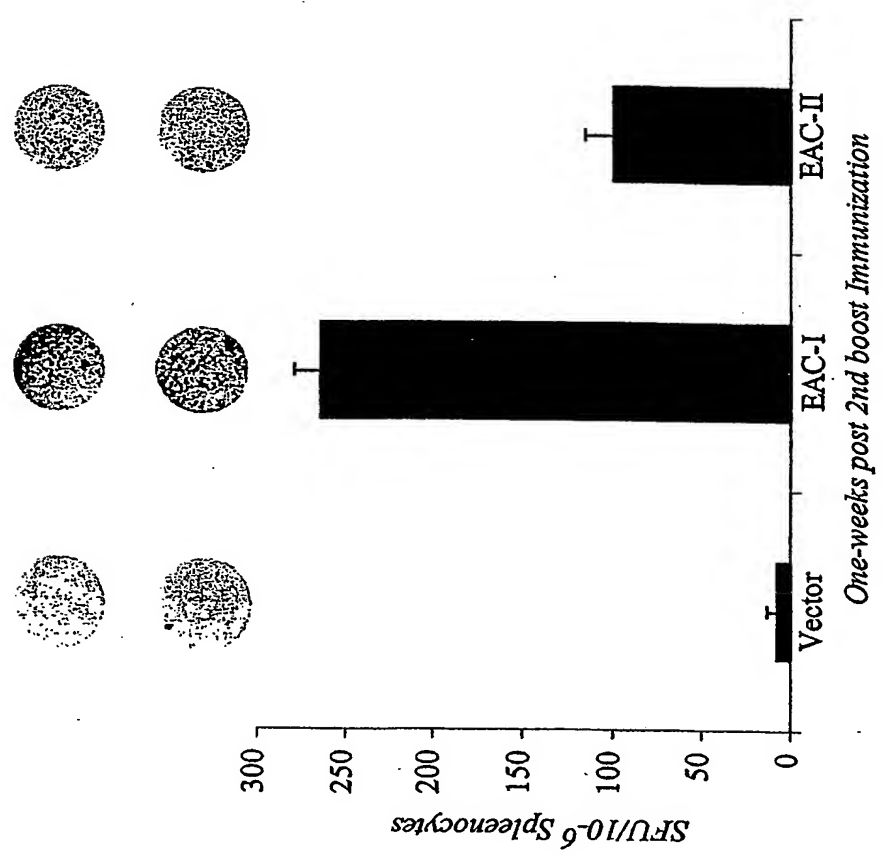

FIG 5

Induction of intracellular IFN- γ in vaccinated splenocytes
Comparison of EAC-1 and Codon optimized Clade B Env
